# CASSIAN GODSTED - WEB DEVELOPMENT PROFESSIONAL

## Experience

### Internal Systems Admin
**INTERalliance of Greater Cincinnati**
*June 2019 - Present*
- Managed and redesigned both the INTERalliance and TechOlympics websites for five years, and handled redesigns of the websites for local nonprofits The Carnegie and WiIT Cincy as the sole frontend developer.
- Maintained existing internal technology applications used in the operations of the organization. This includes laptop imaging, data analysis, and IT support.
- Helped plan and execute TechOlympics 2020-2024, which included bringing the nation's largest student run tech conference to new venues, including two years completely virtual for the first time.

### Operations and Events Assistant
**Northern Kentucky University, COI**
*August 2022 - May 2024*
- Assisting with planning and coordination of College of Informatics sponsored events including the NKU Cybersecurity Symposium, and Digital Transformation Conference as well as other events held in Griffin Hall including digital design, event set-up and tear down, and working registration.

### Technology Intern
**Kroger Technology, Cloud Team**
*June 2023 - August 2023*
- At Kroger, I assisted with their Azure and Google Cloud Platform projects. I was able to become familiar with Terraform for deployment of cloud resources.

## Summary

While primarily a web developer, my work in the nonprofit and education spaces have given me opportunities to learn a variety of skills, including event management, scripting and automation, and more. I'm always willing to learn, and I pride myself on being driven to make my work a success.
